

MUHAMMED SHAHAM V

Full Stack Developer (MERN Stack)

+91 9895948261 | muhammedshahamv@gmail.com | [LinkedIn](#) | [GitHub](#) | Kannur, Kerala, India

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building scalable frontend, backend, and full stack web applications using React.js, Next.js, Node.js, Express.js and MongoDB. Skilled in RESTful API design, real-time features, secure authentication, and cloud deployment. Proven track record of delivering production-ready applications independently across the frontend and backend, including hospital management and e-commerce platforms.

Core Keywords: Full Stack Developer, MERN Stack, React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, TypeScript, REST API, Redux, Tailwind CSS, JWT Authentication, Docker, AWS, Agile Development

SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Nest.js, MongoDB, Mongoose, MySQL, PostgreSQL, Sequelize, Redis

Architecture: MVC Architecture, Clean Architecture, RESTful APIs, WebSockets

DevOps & Cloud: Docker, AWS EC2, Nginx, Vercel, Cloudinary, CI/CD

Tools & Integrations: Git, GitHub, Postman, JWT, Socket.IO, Stripe, Razorpay, Firebase, Multer, Nodemailer

WORK EXPERIENCE

Full Stack Developer (Next.js & Node.js) - Subhx Infotech

March 2025 - August 2026

- Developed and maintained dynamic web applications using Next.js (frontend) and Node.js (backend).
- Built RESTful APIs and integrated WebSocket functionality for real-time chat and notification features.
- Designed database solutions with PostgreSQL and Sequelize ORM; used Redis for caching and session management.
- Implemented authentication, authorization, and secure data-handling practices across the application.
- Collaborated with UI/UX designers to deliver responsive, user-friendly interfaces.

PROJECTS

Meddical - Hospital Management System | MongoDB, Express.js, React.js, Node.js, TypeScript

- Built a full-stack platform for appointment booking, real-time doctor-patient chat, and online prescriptions using Socket.IO.
- Implemented Google Authentication, JWT authorization, and Razorpay payment integration for secure appointments.
- Deployed backend on AWS EC2 with Docker and frontend on Vercel, including an admin panel for user and payment management.

GoCart - E-commerce Platform | Node.js, Express.js, MongoDB, EJS, MVC Architecture

- Developed a full-featured e-commerce platform with OTP email verification, session authentication, and wallet system.
- Built referral, coupon, and offer management systems along with Razorpay payment integration and Multer image uploads.
- Deployed on AWS for scalable, reliable hosting.

Mini Projects | URL Shortener, Task Management System, OLX Clone

- URL Shortener: React.js, TypeScript, Redux, NestJS, MongoDB with JWT authentication.
- Task Management System: React.js, TypeScript, MongoDB, Express.js with role-based access and calendar UI.
- OLX Clone: React.js, Firebase, Context API with authentication and real-time listings.

EDUCATION

MERN Stack Development - Brototype, Calicut

2023 - 2024

BCom, Computer Application - Wadihuda Institute of Research and Advanced Studies (Kannur University)

2020 - 2023
